THE EASTERN CHAMBERS

LBS MARG, VIKHROLI (W)

NEXT-GEN CHAMBERS

Grade A+ Commercial Workspaces
Designed for the Businesses of Tomorrow

MUMBAI'S COMMERCIAL LANDSCAPE IS BEING REDEFINED.

Representative Image

For decades, Mumbai expanded the West.
Businesses followed,
investment followed,
people followed.

Today, the city's biggest infrastructure
is redrawing its commercial map.
New bridges.
New highways.
New metro corridors.
New business districts.

The centre of gravity is moving East.
Mumbai's next business chapter is taking shape.
The Future Works Here

A WORLD-CLASS EPICENTRE UNFOLDS AT VIKHROLI.

Vikhroli's evolution has been shaped by three forces:
Industry built the economic foundation.
Infrastructure expanded the catchment.
Communities transformed it into a place
to live, work and invest.

Today, that momentum converges at one address,
where the foundations of the past meet the
enterprises of tomorrow.

The Eastern Chambers connects the established
business ecosystem with the next generation of growth.

Representative Image

POWAI BRINGS THE DEMAND,
VIKHROLI HOLDS THE VALUE.

Representative Image

Less than 2 km from Powai, Vikhroli has an established ecosystem of businesses, enterprises and communities.

Its seamless connectivity and proximity to Mumbai's strategic business and employment nodes are accelerating its evolution from a well-connected business location into a high-potential commercial node.

Vikhroli is transforming into a preferred CBD because of its multi-level connectivity to MMR's established & emerging business districts.

A growing presence of global corporates and capability centres is fuelling Vikhroli's evolution into a stronger business ecosystem.

WHERE MUMBAI CONNECTS, THE FUTURE WORKS.

On LBS Marg in Vikhroli West, The Eastern Chambers is positioned at a strategic intersection of Mumbai's eastern corridor, connecting the city's Central, Western and North-Eastern catchments.

THREE GLOBAL BENCHMARKS.
ONE FUTURE-READY WORKSPACE.

From sustainable infrastructure and resilient connectivity to intelligent building performance, The Eastern Chambers brings together three global benchmarks to create a workplace equipped for how businesses will work tomorrow.

LEED*

A benchmark for environmental performance across energy efficiency, water conservation, indoor environmental quality, materials and site considerations.

WIREDSCORE*

A benchmark for digital connectivity, resilience and technology infrastructure helping buildings stay connected as business requirements evolve.

SMARTSCORE*

A benchmark for smart building technology, automation, IoT integration and data-enabled operations.

Representative Image

INNOVATION SHAPING THE FUTURE OF BUSINESS.

The Eastern Chambers reimagines the modern workplace for businesses that expect their address to work as hard as they do. A Grade A+ workplace should do more than accommodate business. It should enable what comes next, driven by **Technology, Design, Sustainability and Wellness.**

PILLAR 01

INTELLIGENCE BEHIND TOMORROW'S WORKPLACE.

At The Eastern Chambers, technology is seamlessly integrated into the building, making everyday operations more connected, responsive and effortless.

Representative Image

- SmartScore Gold & WiredScore Gold*
- IBMS Powered by Enlite
- IoT-Enabled Tenant Experience
- Tenant App for Access, Visitor Management and Building Services

*Pre-Certification Aligned

PILLAR 02

DESIGNED FOR THE FUTURE OF WORK.

Every design decision is rooted in the realities of contemporary business, balancing functionality, flexibility and architectural distinction to create a workplace that works intuitively.

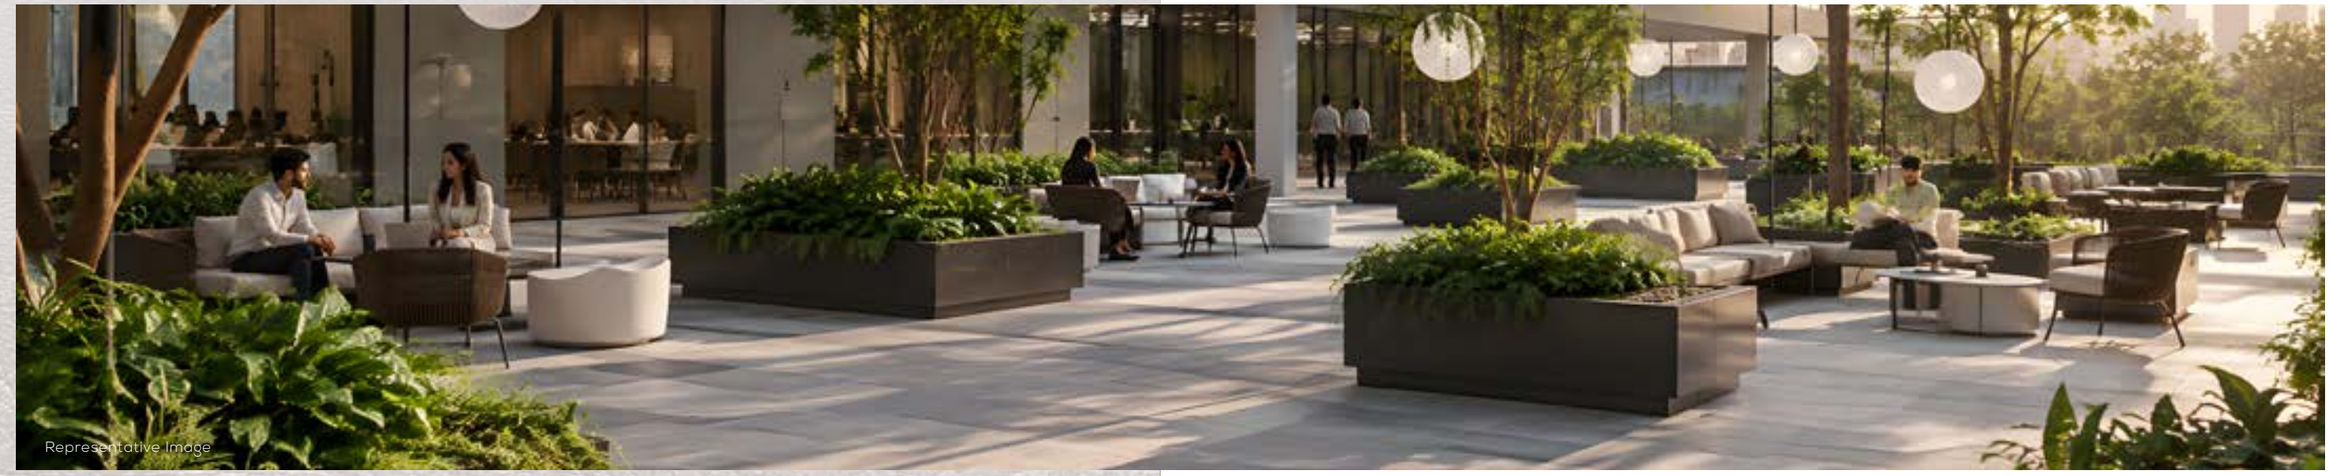

Artistic Impression

- Triple-Side Views - Mangroves, Mountains and City
- Hospitality-Grade Double-Height Arrival Lobby with Café
- Stone, Metal and Glass Façade
- Column-Free Floor Plates
- Biophilic Landscape
- Eight High-Speed Elevators
- Natural Daylight on Every Side

PILLAR 03

SUSTAINABILITY REDEFINING FUTURE-READY WORKSPACES.

Resource-efficient systems and sustainable design come together to create a workplace that performs efficiently and is built for the future.

Representative Image

- LEED Gold*
- Solar Integration
- Rainwater Harvesting and Recycling
- Double-Glazed Glass for Thermal and Acoustic Control
- On-Site Sewage Treatment Plant
- EV Charging

*Pre-Certification Aligned

PILLAR 04

WELLNESS ENABLING NEXT-GEN OFFICE CULTURE.

Natural light, greenery, cleaner air and spaces to pause, connect and recharge bring greater comfort and balance to the working day.

Artistic Impression

- 10,000 Sq.Ft. Dedicated Green Reserve
- AQI Infrastructure in Common Areas
- Landscaped Rooftop with Breakout Zones
- Reserved Indoor Amenity Space
- Retail and Dining at the Base

OWN THE FUTURE,

BEFORE THE MARKET PRICES IT IN.

Vikhroli is at the forefront of Mumbai's upcoming commercial demand where Grade A+ space is limited. The Eastern Chambers anchors together infrastructure and occupier needs, shaping the city's next-gen commercial businesses.

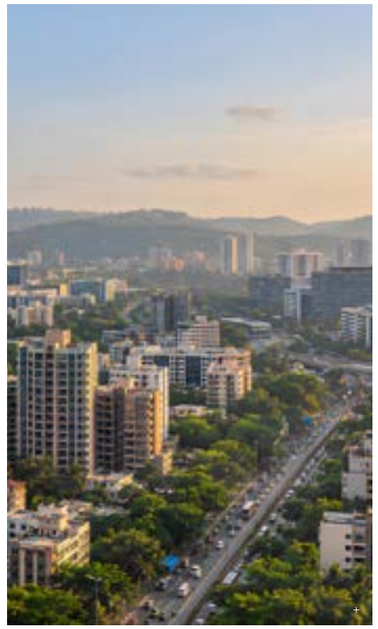

THE NEXT GROWTH CORRIDOR

As supply tightens across Mumbai's core commercial districts, from BKC to Lower Parel and Andheri, the next wave of commercial demand is moving East, towards Vikhroli.

LIMITED GRADE A+ SUPPLY

With vacancy in Vikhroli West at around 5%, versus approximately 9% across Mumbai, the corridor continues to see strong occupier demand despite significant new supply.

FREEHOLD OWNERSHIP

A greenfield development on freehold land offers the clarity and control of outright ownership, without lease-renewal considerations associated with leasehold assets.

INFRASTRUCTURE - LED VALUE CREATION

With key infrastructure links strengthening connectivity to the address, Vikhroli is positioned for sustained commercial growth and long-term value creation.

DIVERSIFIED OCCUPIER DEMAND

With flexible & column-free floor plates and high-street retail, The Eastern Chambers is designed to serve multiple business formats within one address.
